

Our Business

UDCS Consulting is an engineering firm focused on electrical infrastructure. The company has been trading since 2002. It has been built from the ground up around core of highly qualified people from the electrical industry who pride themselves on quality and delivering projects on time, on budget.

One of the reasons for the company's success is best illustrated by '*The devil is in the detail*' approach. UDCS Consulting has delivered many challenging projects that other Consultancies have failed to complete, they deemed '*Too hard*' or they have not been reactive to meet Client's requirements.

UDCS Consulting is a Brisbane based consultancy that specialises in:

- Electrical & Structural Engineering
- Project & Construction Management
- Design & Drafting
- Auditing

Our Clients
